

## Paperless perks

**Shepherd Veterinary Software** provides the full support you need and proven strategies that work to transition your practice seamlessly to a paperless system.

We've tackled numerous walls of medical records (including our own) and will show you how easy it is to streamline your operations and make your medical records accessible from anywhere. Say hello to easy-to-use electronic medical records and goodbye to paper, printers, and messy ink cartridges!

### Once you go paperless, you'll never go back

Get back office space while finding time and money you didn't know was missing:

- ▶ Lower administrative costs
- ▶ Fewer data entry errors
- ▶ More efficient workflow
- ▶ Automatic revenue capture
- ▶ Reliable inventory management

### Shepherd to the rescue

Our intuitive SOAP-based workflow makes using paperless records a breeze. Spend more time with patients and less time with paper while your new electronic SOAPS are building the medical record, a treatment plan, and an invoice all in one!

## Before Shepherd

## With Shepherd

Wall of charts requiring organization	Client/Patient search bar
Chart pulling for the day's appointments	Active Patients dashboard view
Traveling paper charts	SOAP workflow with automatic charge capture
Stacks of medical records waiting to be completed that can't be accessed remotely	In Review dashboard view — filterable by doctor and accessible with internet connection
Written physical exam findings that may be difficult to read	Physical exam templates — simple to complete with prefilled notes or integrated dictation software
Clients holding their wiggly pets while filling out multiple forms	Customizable client forms — sent prior to the exam
Post-its and tracking down co-workers to reference medical notes	Assigning tasks & tagging a co-worker
Written discharge instructions - easy for clients to misplace and difficult to read	Automated discharge instructions that can be texted or emailed to clients
Paper treatment sheets that may be ruined during patient care	Whiteboard & treatment scheduling
Cumbersome manual inventory item counting, analyzing, and reordering	Automatic inventory management
