Shepherd

Manage your practice with a PIMS you'll love

Shepherd Veterinary Software is a cloud-based practice management software designed to streamline your workflow - so you can take home more stories and less stress.

Easy to use, easy to learn

Intuitive SOAP-based medical records increase daily efficiency so you and your team can spend more time providing the best care for your patients.

Shepherd automatically updates the medical record, adds services to the invoice, generates discharge instructions to send home with the client, and so much more. It's that simple!

"The onboarding process for Shepherd was seamless...I cannot recommend Shepherd enough to anyone in the Veterinary industry!"

Hope C., Practice Manager
Prospect Park Veterinary Clinic
